

# FRONTLINE HEALTHCARE WORKERS IN NUHW ISSUE STRIKE NOTICE – CNA ISSUES SYMPATHY STRIKE FOR TUESDAY, JANUARY 31

“As registered nurses we cannot sit idly by and allow Kaiser to destroy healthcare, a secure retirement for our community and not provide adequate mental health services to our patients. As outlined in the report *Care Delayed, Care Denied*, Kaiser mental health services ‘are sorely understaffed and frequently fail to provide timely and appropriate care.’

“It is wrong for Kaiser executives to enrich themselves, compensating George Halverson, Kaiser CEO \$8.98 million a year, while harming frontline healthcare workers and patients.”
